

Flight Attendant (49 years old) with 31 years flying. Do NOT allow PAX to utilize cell phones or other handheld devices during flight. I'm convinced that this could be a security breach onboard in several capacities. From my experience, most often after landing PAX use their cell phones in benign manners - notifying associates of arrival, car rentals, etc. However during flight certain correspondance can be utilized in a malignant manner...especially on a large AC. PLEASE DO NOT ALLOW THIS ONBOARD FOR ANY REASON. CELL PHONES, PAGERS, BLACKBERRY DEVICES SHOULD NOT BE USED DURING FLIGHT. Thank you for the opportunity to correspond with you and voice my concerns.
